“ I see it's been 9 months since he passed away & I just found out. He was my good buddy & band mate in our rock band in college. He was the other guitar player. lol One day he told Larry, our drummer, & me that we were going to build a PA system. He drew up the plans & we built it. I was amazed at what he could do. The 3 of us hung out all the time & all ended up graduating between gigs. Love you brother Dave.

“ I grew up with David. We attended elementary to High school and kept in touch through the years. He lived in the same subdivision as I did growing up. He was a kind and decent person. I always enjoyed catching up on our lives when we saw each other. I will certainly miss him. May you Rest In Peace, David. Karen Thomas Yeaman

“ *Missing Dave. A true innovator in the live music industry. Best Road Cases I ever used, some of the best PA Systems in the country.*

Dave Phipps- everyone's friend. He was also always willing to help out a Church, Shelter or pretty much any good work that needed support we could provide.

Man, we had a time, we really did.

I think Dave got his greatest joy, work wise, from hearing a promoter, club owner, band , facility owner or manager telling him how happy they were with our work, quality of sound, organization etc. He would just beam!

Pickers (musicians for those outside the industry) Dave loved you all, you and what you do, was the reason for everything he got into, everything we did. It was always about Music and the people who create it . There was always the sense of "presenting what you do" to the absolute best of our abilities .

I'm not sure Dave ever worked a day in his life, for him, it was always an adventure in creating, innovating , refining. Lord only knows all the times he stayed up all night working on a new idea, rebuilding a console etc . (Grin, And messing about in my monitor-world cases, sometimes just to watch me me blow a gasket I think-grin)

My Buddy Dave, I miss you brother, we remain, as always: Online, Ontime.

May your Memory be eternal.
